

Google™ apps

With **Google Apps Premier Edition**, you can give your employees the next generation communication and collaboration tools they need to manage electronic communications, share and publish information and stay connected while on the go.

Whether you're looking to transition from or complement your existing messaging infrastructure with more advanced collaboration tools, Google Apps Premier Edition gives you full control with minimal investment. Google Apps Premier Edition can also make it easy to meet deskless employees' email and calendaring needs.

Best of all, it's hosted by Google so there's no hardware or software to download, install, or maintain. With Google, you can afford to provide each and every employee with the tools needed to succeed and drive your business.

Google Sites

Quickly and easily publish team sites, project sites, and micro sites

Google Gadgets

Includes tools such as YouTube for embedding rich media, custom gadgets to visualise company information

Personalized Start Page

Create your own portal page including access to your company info from a single, user-friendly interface.

Gmail

The same experience – but on your domain with integrated search tools and instant messaging.

Google Calendar

Co-ordinate meetings, events, and resources with sharable calendars.

Google Docs

Create, share, and collaborate on documents, spreadsheets, presentations and custom forms in real time.

Google Video

Share more information in less time, making company content more personal, visual, and engaging.

Google Talk

Free text based instant messaging and voice calling around the world.

Stop Collaborating Like It's 1999!

Google Apps enable secure, real-time collaboration among workgroups of all sizes. With hosted documents – word processing, spreadsheets, and presentations – web-based video access, and easy site-building tools, Google makes information usable from any browser or smart phone, whenever and wherever users work. SAML-based Single Sign-On (SSO) services integrate seamlessly with established security and authentication systems. Google Apps bring easy, secure productivity to any work team, without the need to add additional hardware or software.

Productive employees

Less time searching for information,
more time using information

Lower IT cost and complexity

Scalable, reliable cloud computing
with less maintenance

Reduced security and compliance risks

Move the business forward
while ensuring you're protected

*"The migration to **Google Apps** was really simple; with the help of **DMSBT**, we now have a professional communication tool kit that helps us collaborate with our clients and has also provided **JAMIDA** with significant savings on IT infrastructure."*

Michael Santer JP, Managing Director, The Jamida Group

Easy Workgroup Communication

Google Apps messaging tools include email, calendar and instant messaging solutions that help employees communicate and stay connected, wherever and whenever they work. These web-based services can be securely accessed from any browser, work on mobile devices like BlackBerry and iPhone, and integrate with other popular email systems like Microsoft Outlook, Apple Mail, and more. Google Apps deliver productivity and reduce IT workload with a hosted, 99.9% uptime solution that gets teams working together fast.

Contact **DMSBT** to discuss your requirements.
